

Planning template for your entry

We've created this planning worksheet to help you organise your ideas. Choose up to three NHS jobs and start thinking about how you might showcase them in your entry - whether it's a video, a poster, a poem, or another format.

In each section, you can:

- **Draw a picture** to show what will appear (this could be a picture of what's happening in your video, a specific part of your poster design, or an important image you want people to see).
- **Write a short description** explaining what's happening or what message you want to get across.
- **Give your work a title** to capture the main idea.

This will help you see how your entry might look when it's finished and get you ready to create the best possible entry!
